**Duration:**  
01/2023 – 12/2025

**Total budget:**  
4 886 621 €

**EU funding:**  
3 909 297 €

## NonHazCity 3

NonHazCity3 (NHC3) tackles the challenge of making buildings, building sites, and building materials tox-free, circular AND climate neutral. Our project **addresses** municipalities, private entrepreneurs, and residents. We will develop 4 solutions, **pilot** them, and elaborate usable protocols **facilitating (especially) the removal of** hazardous chemicals **from our homes, workplaces and the (aquatic) environment.**

**This #MadeWithInterreg project** helps drive the transition to a green and resilient Baltic Sea region.

Organisations from the following countries cooperate together to make that happen:

Latvia, Sweden, Finland, Denmark, Estonia, Germany, Poland, Lithuania
